Great Tasting 100% Alcohol-Free Liquid Herbal Products

Herbal HPA Axis Balancer

– Hypothalamus, Pituitary, Adrenal Glands –

The HPA Axis of the endocrine system consists of the hypothalamus and the pituitary gland, both located in the brain, and the adrenal glands, located above the kidneys. The HPA Axis is a very important part of the glandular system that works together to produce hormones that influence immune system function, moderate growth hormones that support good immune activity as well as growth rates, overall mineral utilization, and the neuro-muscular system of the body.

When these important glands of the HPA Axis get out of sync with each other and cannot produce the proper balance of hormones that they should provide, many aspects of a child's normal health function gets out of balance and into trouble.

Hormones produced by the endocrine system determine if a child grows at the right rate, how he metabolizes foods, weight gain or loss, and all other body functions. Failure to thrive, poor immune activity, inability to focus and attend to tasks, weight and eating problems, emotional mood swings, and many other health imbalances may lie in the endocrine system, itself.

The answer to these problems is often found in proper nutritive support of the glands, themselves. The endocrine glands need specific proteins and minerals in regular supply to produce the complex hormones to keep a child's health in balance, especially during the growing years when the endocrine system holds the key to his or her health.

Children's Gland•Aid™ is an effective herbal amino-specific glandular balancer that supports the HPA Axis of the endocrine system to be better equipped to build immunity, stimulate and balance growth hormone factors, encourage mineral utilization, and boost endocrine driven nervous system activity. It works to build general glandular health. This formula contains specific HPA supporting proteins to help rebuild HPA Axis function.

Part of the reason Children's Gland•Aid™ is so effective as a whole herb formula, is that the special CBN™ TincTract® processing removes these important proteins from herbs without denaturing them and makes them easily available to the body in the liquid herbal formula.

CONTAINS: Barley shoot, ashwagandha root, stinging nettle leaf, asparagus tuber, schisandra berry, wild bergamot bee balm leaf/stem/flower, chicory root, oatstraw leaf/stem, elecampane root, stinging nettle root, mB! Liquid Trace Minerals in a kosher vegetable glycerin/purified water TincTract® base.

SUGGESTED USE: 1/4–1/3 teaspoon (1.23–2 ml) one to three times a day or as needed.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Barley Shoot (*Hordeum vulgare*) contain complex proteins and mineral electrolytes to support endocrine system function.
- Ashwagandha Root (*Withania somnifera*) is an important rejuvenating and revitalizing herb used in India for more than 2500 years to strengthen the immune system and overall endocrine system function. A longevity and vitalizing energy herb with similar results as ginseng, but not as stimulating to immune system.
- Stinging Nettle Leaf (*Urtica dioica*) is very high in nutritional minerals, complex proteins, and vitamin C and is cleansing and nourishing to support glandular function. Contains important minerals such as iron that are essential to oxygen intake in the body.
- Asparagus Tuber (*Asparagus cochinchinensis*) restores overall vitality and supports the kidneys. High in complex proteins.
- Schisandra Berry (*Schisandra chinensis*) is used in Chinese medicine as an adaptogenic tonic herb that balances body functions, improves the health of the adrenal glands, and increases overall stamina.
- Wild Bergamot Bee Balm Leaf/Stem/Flower (*Monarda fistulosa*) has a glandular balancing activity that supports both masculine and feminine hormonal balance.
- Chicory Root (*Cichorium intybus*) is a diuretic, laxative, tonic herb that supports immune health. Contains proteins that benefit the HPA axis, and is very good for the liver.
- Oatstraw Leaf/Stem (*Avena sativa*) benefits thyroid function, strengthens the immune system, and is a restorative nerve tonic that contains nutrients that support overall glandular function. It is high in silica and has a cooling adaptogenic activity.
- Elecampane Root (*Inula helenium*) strengthens heart function and the body's ability to adjust to stress. Contains polysaccharides that build the endocrine system and immune system.
- Stinging Nettle Root (*Urtica dioica*) is extremely high in endocrine building complex proteins and mineral compounds.
- mB!™, a proprietary, microfractionated liquid trace mineral made using the exclusive CBN™ Citritol™ process.

WORKS WELL WITH THESE CBN™ FORMULAS:

Children's Adreno•Build™, Children's Antioxidant Berries Plus™, Children's Auto-Immune Nectar™, Children's Daily Herbals™ Multi, Children's Herbal Minerals™, Children's Pancre•Aid™, Goji Plus™, Thyro•Boost™

Item #759–2 oz; #760–4 oz

Adults/Teens: Item #628–2 oz, #617–4 oz, #693–8 oz
