## A New Approach to Balancing Energies, Emotions, and Well-Being

Energetic Anatomy™ formulas (formerly called Flower Essence Blends PLUS™) represent a revolutionary leap in energy and emotional healing by restoring the balance of emotions and subtle energy flows throughout the body by targeting specific energy centers, which benefits physical health and well-being.

We all know about Physiological Anatomy. Well, there is an *Emotional Anatomy™* as well. There are 12 energy centers, each keyed to specific physical body systems. Each energy center drives specific emotional characteristics, causing parts of our *Emotional Anatomy™* and *Energetic Anatomy™* to be out of balance. By addressing these energy center imbalances, many emotional and physical conditions within the body/mind/emotions begin to resolve and clear up.

Co-developed and formulated by LoR. Caarl (L. Carl) Robinson and fellow herbalist Stephen H. Horne using the most well-proven flower essences stocks available and CBN™ exclusive Biologically Targeted Coherent™ (BTC™) Energy technology, these blends are the core of the Energetic Anatomy™ Energy Healing System.

Flower Essences were first developed by Dr. Edward Bach in the 1930's, using the energetic essences of flowers in homeopathic doses in an alcohol/water base. Clinical and formulary herbalist LoR. Caarl (L. Carl) Robinson, founder of Cedar Bear Naturales™, has taken Bach's and Flower Essence Services' (FES) work and improved upon it! These 12 products contain over 60 different flower essence signatures, each professionally combined with complex BTC™ energy signatures to elicit specific energy clearing responses.

Each of the 12 proprietary Energetic Anatomy™ Formulas consists of a *totally 100% alcohol-free* proprietary liquid base that contains Kosher certified vegetable glycerin, purified water, and mB!™ poly-colloidal Liquid Trace Minerals. This base is then oxygen enriched, laser activated and energetically potentized with a proprietary complex flower essence formula blend and synergistically boosting BTC™ energy signatures to create these amazingly stable Energetic Anatomy™ Formulas, each one targeting a different energetic center of the body.
