

# Equine Arth•Joint Aid™

by CEDAR BEAR NATURALES™

Great Tasting 100% Alcohol-Free Liquid Herbal Products

## Herbal Relief for Inflammatory Pain in Joints and Muscles

Horses are athletes, and joint inflammations and aching muscles are a part of the territory. A general rule of thumb to remember around pain and joint problems is that the more an animal weighs, the more prone it will be to joint pain and non-specific joint degeneration. Therefore, large dogs and horses often have more difficulty in this area than smaller animals. And, as horses get older, they often experience degenerative conditions and/or autoimmune system problems that can lead to swollen joints and aching muscles.

Pain and stiffness are signals of underlying problems that need addressing. Certain ongoing pains in the joints are caused by excess blood proteins gathering around the cells and creating histamine reactions that cause inflammation and pain.

Herbal remedies can do far more than just reduce the sensation of pain. They can work to reduce inflammation and help repair tissues as they provide relief to discomfort.

The herbs in Equine Arth•Joint Aid™ by Cedar Bear Naturales™ are known to help rebuild tissues, enhance metabolic processes that clear proteins and toxins from within the cells, and restore function and balance to the body.

Unlike medications that merely mask pain, Equine Arth•Joint Aid™ helps rebuild and re-establish the delicate balance of minerals in and around affected tissues. This nutritional support formula works to remove excess fluids and reduce inflammation from around the joints, and is also effective for relieving chronic pain that sometimes results from injuries. It contains high levels of major and trace minerals and is also gentle and soothing to the stomach. Formulated specially for horses' needs, Equine Arth•Joint Aid™ helps horses to get moving again!

**SUGGESTED USE:** 1/2–1 teaspoon (2.46–5.4 mL) for a medium sized horse each time taken, 2 to 3 times a day, or as needed. Adjust amount used up or down according to horse's size, weight and need. Best given between feedings. May be used daily for chronic needs.

**NOTE:** For horses on blood-thinning medications, consult with your veterinarian before using this formula. Do not use during pregnancy.

**CONTAINS:** Stinging nettle leaf, devil's claw root, cat's claw bark, cornsilk, fenugreek seed, alfalfa leaf, mead-

owsweet leaf/stem, yucca root, mBI™ Liquid Trace Minerals in a Kosher certified vegetable glycerin/purified water TincTract® base.

### MORE ABOUT THE HERBS IN THIS FORMULA:

- Stinging Nettle Leaf (*Urtica dioica*) is very high in tissue building mineral electrolytes for healing bones, muscles, nerves and skin, and has a mild non-stimulating diuretic action that helps to reduce chronic water retention.
- Devil's Claw Root (*Harpagophytum procumbens*) prevents and reduces inflammation, is used to relieve joint pain and swelling, and may also help to reduce allergic responses that contribute to joint and muscle related pains.
- Cat's Claw Bark [Una de Gato] (*Uncaria tomentosa*) For joint and connective tissue inflammations. Reduces cartilage-based swelling in joints and spinal column.
- Cornsilk Style/Stigma (*Zea mays*) is a non-stimulating, gently cooling diuretic, and helps to keep the body fluids from collecting around the joints.
- Fenugreek Seed (*Trigonella foenum-graecum*) draws out excess fluid in body tissues, helps to reduce inflammation, and is very soothing to the stomach.
- Alfalfa Leaf (*Medicago sativa*) contains mild blood thinning, cleansing and building components that enhance oxygen uptake and aid blood flow in and around joints and muscle tissues. High in necessary minerals to build tissue health.
- Meadowsweet Leaf/Stem (*Filipendula ulmaria*) Profoundly settles stomach/gastric nerves. Reduces joint pain/fevers, fluid retention, and urinary tract inflammations.
- Yucca Root (*Yucca filimentosa*) has high saponin (detergent-like components) levels that reduce inflammation in the joints and is primarily used for reducing joint pain.
- mBI™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process to enrich and assist important enzymatic processes.

### WORKS WELL WITH THESE CBN™ FORMULAS:

Equine Daily Use & Recovery, Equine Hoof, Coat & Skin Care, Equine Kidney Aid, Equine Lymphati•Clear™

ITEM: #763–4 oz; #764–8 oz
