

Equine Digest•Aid

by CEDAR BEAR NATURELES™

Great Tasting 100% Alcohol-Free Liquid Herbal Products

Improves Digestion, Reduces Bloating & Intestinal Gas

Good digestion is vital for a horse's overall health. A strong digestive system supports a healthy immune system. Many horse health problems such as frequent illness, failure to put on weight, colic, and founder stem directly from digestive problems. Even emotional problems and skin and coat problems can come about because the digestive system is not functioning properly.

A horse's digestive system can be damaged in many ways: imbalances of the natural flora of the stomach and colon caused by antibiotics killing off good bacteria, malnutrition, viral infections, chemical and toxin exposure, and even chronic stress. Digestive enzyme activity and normal stomach acids can become so reduced that foods don't digest properly. Food allergies and many forms of degenerative and autoimmune conditions can then arise.

Equine Digest•Aid™ by Cedar Bear Naturales™ is calming and soothing to the digestive system with a gentle gas relieving and antispasmodic action to help to relax the digestive system for better digestion. This formula aids in the production of bile to improve digestive processes and reduce inflammation in the digestive tract. Regular use builds digestive integrity through the high mineral and vitamin content and tonifying action of the herbs used so digestive processes improve over time.

Equine Digest•Aid™ effectively reduces colicky spasms and inflammation, flatulence, abdominal distention, and digestive irritability and helps improve appetite for those horses that don't eat well.

Equine Digest•Aid™ can be used both as a direct aid for occasional stomach upset and on a regular basis to build and support digestive processes to reduce flatulence, bloating, and to improve overall health.

CONTAINS: Beet root, alfalfa leaf, chamomile flower, catnip leaf/stem, carrot seed, celery seed, lovage leaf, and mB!™ Liquid Trace Minerals in a Kosher certified vegetable glycerin/purified water TincTract® base.

SUGGESTED USE: 1/2–1 teaspoon (2.46–5.4 mL) for a medium sized horse each time taken, 2 to 3 times a day, or as needed. Adjust amount used up or down according to horse's size, weight and need. Give just before eating to improve overall digestion, give between meals for gas/flatulence.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Beet Root (*Beta vulgaris*) contains an effective protein-

digesting enzyme precursor to aid protein digestion; builds the blood, helps digestive pH dynamics, tonifies the digestive system, helps balance blood sugars, benefits wasting conditions and digestive weakness. Beet root is very high in minerals, especially iron.

- Alfalfa Leaf (*Medicago sativa*) is highly nutritive and rich in the major minerals (calcium, magnesium, phosphorus, and potassium), trace minerals, all known vitamins, and is high in protein.

- Chamomile Flower (*Matricaria recutita*) calms and soothes both the digestive and nervous systems. This herb is rich in calcium and magnesium salts, helping to relax the nervous system. It has anti-inflammatory, antispasmodic, and sedative actions, and reduces stomach upsets and gas.

- Catnip Leaf/Stem (*Nepeta cataria*) is calming to the stomach, relaxes gastric nervousness, relaxes the peripheral nerves and aids in potassium electrolyte uptake. This herb is slightly sedative with a gentle diuretic effect that increases gallbladder activity. Dispels gas and flatulence, reduces stomach spasms, aids digestion, helps promote sleep and relieves stress.

- Carrot Seed (*Daucus carota*) nutritionally supports the digestive system. A small amount is used to support the other herbs in this formula.

- Celery Seed (*Apium graveolens*) is a mild digestive stimulant with a diuretic action that helps to clear toxins from the body. A small amount is used to support the other herbs in this formula.

- Lovage Leaf (*Ligusticum officinale*) increases saliva and gastric secretions, expels intestinal gas, and is diuretic, sedative, antimicrobial, and flushes inflammation of the lower urinary tract. A small amount is used to support the other herbs in this formula.

- mB!™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process that assists important enzymatic processes that are essential for healthy digestion.

Equine Digest Aid™ works well with all other formulas in the CBN™ Equine Product Line, especially Equine Parasite Management, Equine Hoof, Coat & Skin Care, Equine Daily Maintenance, Equine Liver Antioxidants
