

Equine Dry Respiratory Aid

by CEDAR BEAR NATURALES™

Great Tasting 100% Alcohol-Free Liquid Herbal Products

An Herbal Formula to Moisten and Clear Dry Respiratory Tissues

Inflammation of the bronchial air passages to the lungs can be caused by inhaled dust, airborne irritants, microorganisms, allergens, etc. The lining of the throat, airways and lungs are very delicate, and when these sensitive tissues become irritated and inflamed, this can cause coughing and wheezing, an especially challenging problem to deal with for athletic animals like horses.

There are two kinds of coughs, the wet, productive cough that produces mucous phlegm and is often caused by a cold, and the dry, non-productive cough that is a reaction to irritation and is a hacking and choking cough.

Most often the dry, hacking kind of cough caused by inflammation isn't caused by bacteria, and herbs can be a viable way to help your horse overcome this form of cough.

Equine Dry Respiratory Aid by Cedar Bear Naturales™ is the original natural herbal formula developed specifically to soothe and moisturize dry, irritated tissues in the lungs and bronchial tissues, as well as throughout the body. It helps reduce inflammation and relieves dry, hacking coughs and works to re-hydrate all tissues in the respiratory system and the digestive system.

Equine Dry Respiratory Aid not only helps reduce symptoms, but it is also high in ascorbates, antioxidants and respiratory-building mineral electrolytes to help speed recovery and build health. Horses exposed to various environmental pollutants and dry climates, dust allergy reactions, smoke, and other factors that cause respiratory tissues to become dry and difficult may find this unique formula brings them welcome relief.

SUGGESTED USE: 1/2–1 teaspoon (2.46–5.4 mL) 1 to 3 times a day, or more often if needed. Adjust amount up or down according to weight of horse, as well as need. May be given several times a day during a health crisis.

NOTE: Should not be used where excessive congestion and a moist, wet cough are present. (Use Equine Respiratory Aid™ for Wet Conditions instead.)

CONTAINS: Mullein leaf, marshmallow root, angelica root, orange peel, European elder berry, calendula flower, mBI™ Liquid Trace Minerals in a Kosher certified vegetable glycerin/purified water TincTract® base.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Mullein Leaf (*Verbascum thapsus*) builds the health and integrity of the respiratory system as it cools and lubricates dry, irritated tissues, helps relieve pain, spasms, and clear the lungs. Eases spasmodic coughs, reduces inflammation and increases mucous production to moisten dry, inflamed mucous membranes.

- Marshmallow Root (*Althea officinalis*) is soothing and cooling, relieves dry inflammations and irritations of the mucous membranes of the mouth, throat, gastrointestinal tract and urinary tract, and helps the body to overcome constipation caused by dry, irritated tissues in the body.

- Angelica Root (*Angelica archangelica officinalis*) soothes respiratory inflammation with its antiseptic and analgesic activity, enhances immune system function, strengthens overall health.

- European Elder Berry (*Sambucus nigra*) is an antioxidant that is high in vitamin C factors, helps to reduce coughs and bronchial congestion, and supports the body in dealing with congestion throughout the body, and reduces throat irritations.

- Orange Peel (*Citrus sinensis*) has important antiseptic aromatic components, has a gentle bronchial passage opening property, and aids in pulling excess fluids to the stomach.

- Calendula Flower (*Calendula officinalis*) has a soothing antiseptic and anti-inflammatory action in the body and gently stimulates immune system function, reduces inflammations of internal organs, and helps to reduce fever.

- mBI™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process that enriches and assists important enzymatic processes.
