

Equine Liver Anti-Oxidants

by CEDAR BEAR NATURELES™

Great Tasting 100% Alcohol-Free Liquid Herbal Products

Natural Antioxidant and Liver Protection for Horses From a Whole Herb Source

Equine Liver Antioxidants provides daily antioxidant replenishment and liver protection for pets of all ages. It contains herbs that are rich in pH buffered bio-active ascorbates, flavonoids, essential minerals, free radical scavengers, and immune building agents. No artificial ascorbic acid is added to this product. The vitamin C factors in the herbs used in Equine Liver Antioxidants by Cedar Bear Naturales™ are naturally occurring, gentle on the digestive system, and help a horse's immune system function better.

This formula is a rich herbal source of easily assimilated antioxidants, not only because of the antioxidant action of the herbs used, but also because Cedar Bear Naturales™ unique TincTract® process uses the whole herb parts and suspends them in a liquid form that the body can readily use and take advantage of.

WHY ARE ANTIOXIDANTS SO IMPORTANT?

Antioxidants counteract negative effects of free radicals and help maintain the health of the body's cellular makeup.

Free radicals (highly reactive charged molecules that bind to and destroy vital cellular substances, causing a chain reaction that damages health and causes physiological damage.) come from our environment in the form of fatty diets, cigarette smoke (secondary smoke from cigarettes causes free radical activity in pet's bodies), radiation from the sun, processed foods, and toxins such as herbicides, pesticides, water and air pollution. Free radicals are also created as a result of the normal oxidation processes within normal body chemistry metabolism and by exercise and stress.

The damage done to an animal's body by these renegade radicals is believed to be a major factor in many kinds of health problems. Free radical damage can be found in joint and tissue inflammations, immune system imbalances, and aging.

Antioxidants trap, deactivate and destroy free radicals, preventing the damage they can cause in a process that is called "free radical scavenging." Essentially, antioxidants either react with and eliminate the free radical or donate one of their own electrons to neutralize and create balance.

A wide variety of antioxidants are necessary for your horse's body to repair free radical damage, to overcome health imbalances, and to stay well and maintain youthful health and vitality. While many animals normally produce most of their vitamin C needs in their own bodies, today's horses are exposed to many factors that require additional antioxidant supplementa-

tion. Equine Liver Antioxidants is a powerful formula for slowing the aging process, protecting liver function, building overall health and in helping to overcome immune challenges.

CONTAINS: Chicory root, milk thistle seed, olive leaf, European elder berry, sarsaparilla root, and mB!™ Liquid Trace Minerals in a Kosher certified vegetable glycerin/purified water TincTract® base.

SUGGESTED USE: 1/2–1 teaspoon (2.46–5.4 mL) for a medium sized horse each time taken, 1 to 3 times a day, or as needed. Adjust amount used up or down according to horse's size, weight and need.

NOTE: Veterinary supervision recommended during pregnancy.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Chicory Root (*Chicorium intybus*) is rich in calcium, is cleansing and nutritive to the liver, and supports the respiratory system with protecting agents that build systemic immunity.

- Milk Thistle Seed (*Silybum marianum*) has important hepatic protective complex flavonoids that heals, supports and protects healthy liver tissues and function.

- Olive Leaf (*Olea europaea*) has a powerful antioxidant action that protects the heart and circulatory system from free radical damage, viruses, bacteria, parasitic protozoans and Candida, all contributors to pet illnesses, lack of energy and rapid aging. High in magnesium, calcium, phosphorus, cardio- tonic and immune strengthening flavonoids.

- European Elder Berry (*Sambucus nigra*) is high in potassium, calcium, phosphorus, vitamin C factors and flavonoids for the immune system; protects against environmental pollutants.

- Sarsaparilla Root (*Smilax officinalis*) is a general bitter tonic that works as a blood purifier and diuretic for clearing out toxins in the body. Contains liver/blood conditioning agents, diuretic compounds, fatty tissue cleansers.

- mB!™, a proprietary, micro-fractionated liquid trace mineral supplement that assists important antioxidant driven enzymatic processes.

Equine Antioxidants works well with and supports all other Equine formulas by Cedar Bear Naturales™.

ITEM: #808–4 oz; #809–8 oz
