

Pet ESSIAC Plus!™

by CEDAR BEAR NATURELES®

Great Tasting 100% Alcohol-Free Liquid Herbal Products

Traditional Cellular Support Remedy Now For Pets, Too!

Pet's ESSIAC Plus!™ is based on a nearly one hundred year old recipe that helps an animal's body deal with profound cellular and genetic imbalances and malfunctions. This formula is building and tonifying to blood integrity and supports the body's ability to deal with severe cellular challenges while building immune function. It supports the liver, kidneys, and lymphatic system, which are the body's waste filtering and elimination systems and gives cellular, digestive tract function, and immune system support.

The original Essiac formula (Caisse spelled backwards) comes from Ms. Rene Caisse, R.N., a nurse in Northeastern Canada, who was given a traditional Ojibwa Native American herbal formula for cleansing the blood. The formula was given to Cedar Bear Naturales® founder and product formulator L. Carl Robinson many years ago by a doctor who had worked closely with Rene Caisse until her death in 1978.

The herbs in this formula have blood and lymphatic purifying and cleansing qualities, and also support digestive tract function and build overall health while supporting the body's resistance to infection. Pet's ESSIAC Plus!™ is also beneficial for increasing healthy body and tissue integrity through its soothing and nutritive action. The addition of *mB!*™ liquid trace mineral base to the original Essiac herbal recipe with Cedar Bear Naturales® multi-step glycerol decoction method that pulls all of the beneficial qualities from the herbs and leaves them intact in the liquid further enhances the effectiveness of this formula.

Pet's ESSIAC Plus!™ is formulated for specific cleansing and building action and long-term use and may be taken on a daily basis. It does not need refrigeration after it is opened and is totally alcohol-free!

CONTAINS: Burdock root, sheep sorrel leaf/stem/flower, slippery elm bark, Chinese rhubarb root, and *mB!*™ Liquid Trace Minerals in a kosher glycerin/purified water TincTract® base.

SUGGESTED USE: 1/2–1 teaspoon (2.46–7.4 ml) 2 to 3 times a day, or as needed, for a 15–30 pound animal. Adjust amount used up or down according to weight and need. Use more when aggressively working to overcome a health imbalance and less for follow up support.

NOTE: Care should be taken for animals that have had kidney stones or bowel obstructions. Not to be taken by pregnant animals.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Burdock Root (*Arctium lappa*) is a blood-conditioning herb that has a soothing effect on the tissues of the stomach. Burdock has been used for centuries in North America for blood purifying and for gastrointestinal complaints. Gently stimulates the liver, improves digestion and removes metabolic wastes.

- Sheep Sorrel Leaf/Stem/Flower (*Rumex acetosella*) is a diuretic herb that helps the body resist infections, especially of the respiratory tract. Its action here serves to pull excess fluids from the body and to help clean the blood.

- Slippery Elm Bark (*Ulmus rubra*) is a soothing herb that builds the health of the gastrointestinal tract and assists in building healthy body and tissue integrity. This soothing herb helps remove toxic waste by lubricating, protecting and reducing inflammation of mucous membranes throughout the digestive and urinary tracts.

- Chinese Rhubarb Root (*Rheum palmatum*) [formerly called Turkey Rhubarb Root] is an astringent herb that has a laxative action and helps the colon to function properly, especially important when in a severely depleted or challenged condition. When poor liver function causes constipation and build up of toxins, this herb is particularly helpful.

- *mB!*™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process and enriches and assists important enzymatic processes.
