Great Tasting 100% Alcohol-Free Liquid Herbal Products

Build Healthy Kidney and Urinary Functions Naturally – With Herbs!

Just like with people, the kidneys are the key to the elimination of toxins from an animal's body. When working properly, the kidneys remove excess water, salts and waste products from the body and return all but a small amount back into circulation. They also save necessary minerals, especially potassium, from being washed out of the body in the urine.

The kidney/urinary tract is an important part of keeping the internal organs, tissues, and skin clean, clear, and functioning at their best. When this vital part of the body is compromised in any way, many kinds of health problems arise.

The strength of the kidneys determines part of a pet's ability to resist illnesses and the overall function of the immune system. Some of the problems that can arise from weak kidney function are non-specific pain, general fatigue and continued exhaustion, wheezing and shortness of breath, reproductive function problems, water retention, poor appetite, dry skin, spine and hind limb function, bone strength and development, and body temperature regulation. Deterioration of the kidneys is a common old age problem in both dogs and cats, and various kidney/urinary tract problems may happen at any age, especially in more 'pure-bred' pets.

Pet's Kidney•Aid is a valuable formula that helps to correct kidney/bladder function, reduce undue water retention, and re-establish proper fluid dynamics throughout the body.

The combination of herbs in Pet's Kidney•Aid gently builds kidney and urinary functions without being irritating or stressing, as well as having an antiseptic action on the urinary tract that helps reduce tendencies towards infections. This formula also helps to reduce inflammations and irritations in the kidneys and urinary tract, as well as reducing problems with sudden urine loss.

CONTAINS: Juniper berry, cleavers leaf/stem/flower, dandelion leaf, cornsilk style and stigma, horsetail leaf/stem, and mBI™ Liquid Trace Minerals in a kosher glycerin/water TincTract® base.

NOTE: Not recommended during pregnancy.

SUGGESTED USE: 1/3 teaspoon (2 ml) for a pet weighing 15–30 pounds 2–3 times a day. Adjust amount given up or down according to size and weight of pet and severity of need. Use once daily for maintenance after crisis is over.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Juniper Berry (*Juniperus communis*) contains an antiseptic and disinfecting aromatic component and has natural antioxidant vitamin C action. Stimulates kidney and bladder activity. Used to reduce urinary inflammations and irritations and to clear acid wastes from the system.

- Cleavers Leaf/Stem/Flwr (*Galium aparine*) is high in potassium and calcium and has an aromatic component that gently stimulates diuretic action. This herb is a lymphatic cleanser and blood purifier and for centuries has been used widely as a spring cleansing tonic in Europe.

- Dandelion Leaf (*Taraxacum officinale*) is very high in complex potassium salts, builds kidney tissues, and has a cooling diuretic action that soothes the very stimulating action of juniper berry. This herb helps replace potassium that is often lost in cases of frequent urination, and is also building to the liver and digestive systems.

- Cornsilk Style/Stigma (*Zea mays*) possesses a high potassium and magnesium salts content and a sustained yet mildly cooling diuretic action. Cornsilk is specifically healing for urinary tract mucous membranes and is mildly diuretic.

- Horsetail Leaf/Stem [Shavegrass] (*Equisetum arvense*) is high in potassium, manganese, magnesium and silica and builds kidney and bladder strength. It also has a mild antiseptic effect and a cooling diuretic action. This ancient herb was used by the Greeks for wound healing. It is an anti-inflammatory tissue healer that tonifies the urinary mucous membranes and helps reduce urinary loss problems.

- mBI™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process. The complex trace mineral compounds found in mBI™ enrich and assist important enzymatic processes.

WORKS WELL WITH THESE CEDAR BEAR NATURALES® PET FORMULAS:

Pet's Anti-Oxidants, Pet's Arth•Joint Aid™, Pet's Coat & Skin Care, Pet's Daily Maintenance, Pet's Herbal Laxative, Pet's Respir•Aid™ for Dry Coughs, Single Herb TincTracts® of Alfalfa, Marshmallow Root

ITEM: #668–2 oz; #669–4 oz; #684–8 oz
