Great Tasting 100% Alcohol-Free Liquid Herbal Products

An Herbal Pain Relief and Fever Reducing Formula That Is Gentle On The Stomach

Animals have pain just like people do. They just don't tend to complain as openly, making it difficult for those responsible for taking care of them to figure out what is causing their pain. We have to become detectives to figure out why our pet isn't acting as frisky as usual, or why he is limping.

There are two basic categories of pain that animals experience. Acute pain happens when something that needs immediate attention, such as with an injury or a sudden internal crisis. Chronic pain is pain that happens continuously or intermittently for more than six months. This kind of pain may be trying to let us know something deeper is going on with our companion pet's health, and may be more difficult to detect.

Some causes of pain can be allergic reactions to foods or environmental factors. Other causes may be from damaged tissues, whether recent or long ago. Sometimes a pet's pain continues even when the apparent cause has been taken care of and it becomes chronic. Stress and anxiousness can trigger pain cycles and intensify pain.

While one needs to do the detective work to find the source of the animal's pain, reducing the pain itself, whether acute or chronic, needs addressing. There is a way to do this with natural herbal remedies, rather than by reaching for medications that can cause side effects such as stomach distress.

Pet's Pain Relief by Cedar Bear Naturales® is an all-natural whole herb product having a broad spectrum of constituents that are known to ease both acute and chronic pain. This formula is cooling to tissues, anti-inflammatory and pain relieving and rich in micronutrients that actually work to support your pet's health.

The herbs in Pet's Pain Relief were chosen for their specific individual effects on differing types of pain and help to relieve certain types of aches and pains, such as muscle pain, joint pain, and general nerve pain.

This particular formula causes little or no stomach upset and is also an effective and gentle fever reducer. (Fever is part of the healing process, as the body is working to fight off infection. If a high fever does not respond to this formula, seek medical attention.)

Pet's Pain Relief may be taken on a regular basis to reduce chronic pain and support cardiac health.

While Pet's Pain Relief reduces pain symptoms with salicin-rich herbs, Pet's Arth•Joint Aid™ works by reducing inflammation in tissues on a cellular level and Pet's Anti-Oxidants works

to protect and aid the liver and provides free-radical fighting antioxidants to help reduce pain.

CONTAINS: Meadowsweet leaf/stem, white willow bark, wild lettuce leaf, gelsemium root, and mB!™ Liquid Trace Minerals in a kosher vegetable glycerin/purified water Tinctract® base.

SUGGESTED USE: 1/3 teaspoon (2 ml) 1–3 times a day for a 15–30 pound pet, or as needed. Adjust amount given up or down according to size of pet and need.

NOTE: Do not give to cats. Cats can have renal failure when given aspirin or salicylates. Veterinarian supervision is necessary if blood-thinning medications are being used.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Meadowsweet Leaf/Stem (*Filipendula ulmaria*) is a salicin-rich herb that reduces joint and related pains and muscle spasms. It reduces inflammation and is known for its ability to reduce fever, excess fluids, and urinary tract inflammations. Meadowsweet is very healing to digestive system tissues and relaxes the gastric nerves.

- White Willow Bark (*Salix alba*), while working a bit slower than aspirin-based pain relievers, helps reduce fevers and inflammatory pain. It is a cooling herb that gently thins and moderates the blood, alleviates most types of headaches and exhibits a mild anodyne action. (Aspirin takes its name from white willow's Latin name and was based on meadowsweet and white willow bark.)

- Wild Lettuce Leaf (*Lactuca virosa*) has sedative qualities, is pain relieving, and soothes an overactive and agitated nervous system.

- Gelsemium root (*Gelsemium sempervirens*), also known as yellow jasmine, cools fevers and soothes the nervous system. It is very calming to emotions. This herb is used to reduce general nerve pain and head and joint pains.

- mB!™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process that enrich and assist important enzymatic processes.

OTHER CEDAR BEAR NATURALES® PET'S PRODUCTS THIS FORMULA WORKS WELL WITH:

Pet's Anti-Oxidants, Pet's Digest•Aid, Pet's Arth•Joint Aid™, Pet's Daily Maintenance, Pet's Anxiety Away!™
