

Glandular Aid™

by CEDAR BEAR NATURELES®

Great Tasting 100% Alcohol-Free Liquid Herbal Products

Health Gone Haywire? Herbal Hypothalamus, Pituitary, Adrenal Balancer

In our high intensity society, we've continued to push harder and faster than ever before. The result has often been fatigue, exhaustion, stress, emotional imbalance, poor immune function. Over time, we've come to believe that it's normal to frequently get sick with cold and flu symptoms, to be constantly tired and run down, and to feel down and out.

These situations can actually be signs that the HPA Axis of the endocrine system is out of sync, exhausted, and needs rebuilding. The HPA Axis consists of the hypothalamus and the pituitary gland, both located in the brain, and the adrenal glands, located above the kidneys. The HPA Axis is a very important part of the glandular system that works together to produce hormones that influence immune system function, moderates growth hormones that support good immune activity, overall mineral utilization, and the neuro-muscular system of the body.

When these important glands get out of sync with each other and cannot produce the proper balance of hormones that they should provide, many aspects of normal health function get out of balance and into trouble. Often, the answer to constant fatigue, poor immune activity, emotional mood swings, and many other health imbalances may lie in proper nutritive support of the glands, themselves. The endocrine glands need specific proteins and minerals in regular supply to produce the complex hormones to keep the body's health in balance, especially when under stress.

Glandular Aid™ is an effective amino-specific herbal glandular booster that supports the HPA Axis of the endocrine system to build immunity, stimulate and balance growth hormone factors, encourage mineral utilization, and boost endocrine driven nervous system activity. It works to build general glandular health. Glandular Aid™ is an amazingly effective herbal formula using specific HPA supporting proteins to help rebuild HPA Axis function. Part of the reason Glandular Aid™ is so effective as a whole herb formula, is that the special CBN™ TincTract® processing removes these important proteins from herbs without denaturing them and makes them easily available to the body in the liquid herbal formula.

CONTAINS: Barley shoots, ashwagandha root, stinging nettle leaf, asparagus tuber, schisandra berry, wild bergamot bee balm leaf/stem/flower, chicory root, oatstraw leaf/stem, elecampane root, stinging nettle root, and mBI™ Liquid Trace Minerals in a kosher certified vegetable glycerin/purified water TincTract® base.

SUGGESTED USE: 1/2 teaspoon (2.46 ml) 2 to 3 times a day for the first month, 1/3–1/2 teaspoon (2–2.46 ml) 1 to 3 times a day for regular use.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Barley Shoots (*Hordeum vulgare*) are high in complex proteins and mineral electrolytes to support endocrine system function.
- Ashwagandha Root (*Withania somnifera*) is an important rejuvenating and revitalizing herb used in India for more than 2500 years to strengthen the immune system and overall endocrine system function. A longevity and vitalizing energy herb with similar results as ginseng, but not as stimulating to immune system.
- Stinging Nettle Leaf (*Urtica dioica*) is very high in nutritional minerals, complex proteins, and vitamin C and is cleansing and nourishing to support glandular function. Contains important minerals such as iron that are essential to oxygen intake in the body.
- Asparagus Tuber (*Asparagus cochinchinensis*) restores overall vitality and supports the kidneys. High in complex proteins.
- Schisandra Berry (*Schisandra chinensis*) is used in Chinese medicine as an adaptogenic tonic herb that balances body functions, improves the health of the adrenal glands, and increases overall stamina.
- Wild Bergamot Bee Balm Leaf/Stem/Flower (*Monarda fistulosa*) has a glandular balancing activity that supports both masculine and feminine hormonal balance.
- Chicory Root (*Cichorium intybus*) is a diuretic, laxative, tonic herb that supports immune health. It is high in proteins that benefit the HPA axis, and is very good for the liver.
- Oatstraw Leaf/Stem (*Avena sativa*) benefits thyroid function, strengthens the immune system, and is a restorative nerve tonic that is high in nutrients that support overall glandular function. It is high in silica and has a cooling adaptogenic activity.
- Elecampane Root (*Inula helenium*) strengthens heart function and the body's ability to adjust to stress. Contains polysaccharides that build the endocrine system and immune system. High in complex proteins.
- Stinging Nettle Root (*Urtica dioica*) is extremely high in endocrine building complex proteins and mineral compounds.
- mBI™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process to enrich and assist important enzymatic processes.

WORKS WELL WITH THESE CBN™ FORMULAS:

Adreno•Build™, Antioxidant Berries Plus™, Auto-Immune Nectar™, Goji Plus™ Longevity, Herbal Minerals™, Female Plus, Memory Plus™, Pancre•Aid™, Thyro•Boost™, microBURST!™

Item #628 2 oz; #617 4 oz; #693 8 oz

Children: Gland•Aid™ Item #759 2 oz; #760 4 oz
