

Noni Antioxidants Plus™

by CEDAR BEAR NATURELES®

Great Tasting 100% Alcohol-Free Liquid Herbal Products

Strengthen Immunity and Improve Energy Levels With Noni and Goji

If you get frequent cold or flu symptoms, experience ongoing health problems, lack overall energy, or if you want to avoid having these problems, this antioxidant rich formula may be just the answer.

Antioxidant supplementation is very important for reducing unstable free radical molecules that are caused by normal body metabolic function and environmental factors such as pollutants, sun exposure, x-rays, heavy metals, smoke, and poor dietary factors. These free radicals react with healthy tissues, setting off reactions that damage tissue and health, and are part of many degenerating health problems and even the aging process, itself.

The specifically high antioxidant action of the herbs in this formula are known to strengthen immune function, hormonal balance, respiratory system, and cardiovascular health. They also support healthy cellular activity, very important to avoiding many of the more serious health conditions.

A great tasting Noni and Goji concentrated herbal formula, Cedar Bear Naturales® Noni Antioxidants Plus!™ formula is not pasteurized and contains no preservatives that popular Noni drinks have to have. Only whole herbs are used in this very effective antioxidant formula that is extremely rich in vitamin C factors.

CONTAINS: Noni fruit (also known as morinda), lycium berry (goji berry/wolfberry), bilberry fruit, European elder berry, orange peel, lemon peel, and mB!™ Liquid Trace Minerals in a kosher certified vegetable glycerin/purified water TincTract® base.

SUGGESTED USE: 1/3–1/2 teaspoon (2–2.46 ml) 1 to 3 times daily. Increase amounts during times of stress or immune challenge.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Noni Fruit (*Morinda citrifolia*) The benefits of noni read like an old-fashioned cure-all. Regular use of noni is very effective at helping improve digestion, blood pressure, respiratory problems and immune function. It supports male sexual function, increases fertility and balances menstrual problems.

Noni increases energy, stamina and endurance and supports the kidneys, helps flush toxins from the body through increasing urine flow. It has compounds that reduce

depressed emotions and also bring a feeling of well-being by helping the brain receive more endorphins, and also helps with sleep. It benefits urinary function, reduces pain and swelling in joints, reducing inflammation problems, and strengthens bones and ligaments.

- Lycium Berry [Goji Berry/Wolfberry] (*Lycium barbarum*) is no less amazing an herb than morinda, as it is a complete nutrition herb that is extremely high in antioxidants, amino acids, betacarotene, iron, and protein.

This tonic herb benefits the stomach and spleen and is used in Traditional Chinese Medicine (TCM) for many kinds of deficiencies. It is an important revitalizing and rejuvenative herb that is used in TCM to rebuild the urinary tract, balance blood sugars, reduce bleeding and support liver function.

- Bilberry Fruit (*Vaccinium myrtillus*) balances blood sugars and increases insulin production. Excellent for the pancreas and is disinfecting to the urinary tract function. Excellent for the eyes with antioxidant action that supports eye health, veins in the extremities, and cardiovascular health, it helps keep arteries flexible, and support digestive system health.

- European Elder Berry (*Sambucus nigra*) is rich in vitamin A and C. One of the most effective herbs for the upper respiratory tract, it is anti-inflammatory and supports the upper respiratory tract, reduces phlegm, and gives strong support to the immune system.

- Orange Peel (*Citrus sinensis*) and Lemon Peel (*Citrus x limon*) are astringing and high in vitamin C citricated flavonoids and various antioxidants and aromatic compounds that further support the immune system building action of this formula.

- mB!™ is a proprietary micro-fractionated liquid trace mineral supplement that enriches and assists important enzymatic processes.
