Great Tasting 100% Alcohol-Free Liquid Herbal Products

HERBAL PAIN RELIEF WITH NATURAL CAFFEINE HERBS FOR STUBBORN CONSTRICTING PAIN

There are headaches, and... there are headaches. Headaches are one of the most common of all health problems.

Some causes of headaches can be allergic reactions to foods, or environmental factors. Some are from stress. Others from damaged tissues, whether recent or long ago.

While one needs to do the detective work to find the source of pain and headaches, reducing the pain itself, whether acute or chronic, needs addressing. There is a way to do this with natural herbal remedies, rather than by reaching for pills (even aspirin) that cause side effects such as stomach distress.

Pain Buster™ by Cedar Bear Naturales® is an all-natural whole herb product having a broad spectrum of constituents that are known to ease pain. Anti-inflammatory and pain relieving, this is a natural alternative to caffeinated pain relieving products.

The herbs in Pain Buster™ were chosen for their specific individual effects on differing types of pain and help to relieve certain types of aches and pains, such as muscle pain, joint pain, and constrictive headaches. This particular formula is cooling and calming, and causes little or no stomach upset.

Some headaches are more stubborn than others. Here is an herbal formula that works rather like pain relieving products that have added caffeine. For that stubborn headache that needs an extra push, the herbs from Pain Away Willow Plus™ are augmented with herbs that contain natural herbal-source caffeine. Caffeine has been shown to effectively help to increase the benefits of pain relieving supplements.

CONTAINS: Meadowsweet leaf/stem, white willow bark, wild lettuce leaf, guarana' seed, mate' leaf, green tea leaf, gelsemium root and mB!™ Liquid Trace Minerals in a kosher certified vegetable glycerin/purified water TincTract® base.

NOTE: Contains natural caffeine. Do not take if aspirin sensitive. Consult physician if on blood-thinning or migraine medications. Not recommended during pregnancy. If pain persists, consult a qualified health care provider.

SUGGESTED USE: 1/3–1/2 teaspoon (2–2.46 ml) as needed. May be used in frequent small doses.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Meadowsweet Leaf/Stem (*Filipendula ulmaria*) is a salicin-rich herb that reduces joint and related pains and muscle spasms, inflammation, and is known for its ability to reduce fever, excess fluids, and urinary tract inflammations.

Meadowsweet is very healing to digestive system tissues and relaxes the gastric nerves.

- White Willow Bark (*Salix alba*), while working a bit slower than aspirin, helps reduce fevers and inflammatory pain. It is a cooling herb that gently thins and moderates the blood, alleviates most types of headaches and exhibits a mild anodyne action. (Aspirin takes its name from white willow's Latin name and was based on meadowsweet and white willow bark.) White willow bark has been documented to have been used as in Sumaria as early as the 16th century B.C.E, by Native Americans for headache, fever, aches and pains, and was even used by Hippocrates, himself, to relieve pains and fever.

- Wild Lettuce Leaf (*Lactuca virosa*) has sedative qualities, is pain relieving, and soothes an overactive and agitated nervous system.

- Guarana' Seed (*Paullinia cupana*) is from the Amazon rain forest, and is an energizing herb often used by athletes to increase energy. It contains guaranine, a compound that is similar to caffeine, and helps stimulate the central nervous system.

- Mate' Leaf (*Ilex paraguariensis*) is a blood cleansing antioxidant herb from South America that stimulates the body through the natural caffeine it contains. It enhances the healing action of the other herbs.

- Green Tea Leaf (*Camellia sinensis*). The polyphenols in green tea are powerfully antioxidant, many times stronger than vitamin E in reducing free radicals in the body. This herb contains natural caffeine, helping stimulate energy.

- Gelsemium Root (*Gelsemium sempervirens*) cools fevers and soothes the nervous system and is very calming to emotions. This herb is used in minute amounts to help reduce nerve pain, headaches and joint pains.

- mB!™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process to enrich and assist important enzymatic processes.

WORKS WELL WITH THESE CBN™ FORMULAS:

Calming Chamomile™, Joint Ease™, Fever Buster™, Herbal Minerals™, Kava Dreams™, Lavender Dreams™, Stomach Relief™, microBURST!™, Single TincTracts® of Meadowsweet Leaf, White Willow Bark.

Item #702 2 oz; #703 4 oz
