

Pancre•Aid™

by CEDAR BEAR NATURELES®

Great Tasting 100% Alcohol-Free Liquid Herbal Products

An Herbal Formula to Support Pancreatic Function

Located below the left rib cage, the pancreas is a very important and little understood part of the endocrine system.

The pancreas has two primary functions. It produces digestive enzymes to break down fats, proteins, and carbohydrates in the small intestines. It also releases the hormones insulin and glucagon, which regulate blood sugar levels. Insulin helps cells absorb glucose (blood sugars).

A healthy functioning pancreas is very important to the balance of blood sugar levels. Inflammation of the pancreas can obstruct digestion and blood sugar balance and effect the health and function of the gallbladder.

Stress, poor diet especially of fatty foods, too much alcohol, and certain prescription drugs, can all effect the efficiency and health of the pancreas.

Pancre•Aid™ is formulated primarily to deal with enriching and building pancreatic function, with a secondary diuretic/kidney building effect. Pancre•Aid™ helps to balance pancreatic functions such as blood sugar levels and digestion. It supports the kidneys and urinary tract, both important to a healthy pancreas. The herbs in this formula also help reduce inflammations in the pancreas, kidneys and urinary tract.

This formula, along with a healthy diet, helps rebuild healthy pancreatic function and reduce tendencies towards blood sugar imbalances. It has also been used effectively to control or manage bladder difficulties.

CONTAINS: Utah juniper berry/leaf, fenugreek seed, burdock root, uva-ursi leaf, dandelion root, alfalfa leaf, juniper berry, European elder berry and mB!™ Liquid Trace Minerals in a kosher certified vegetable glycerin/purified water TincTract® base.

NOTE: Take breaks when using long-term. Not recommended during pregnancy.

SUGGESTED USE: 1/3–1/2 teaspoon (2–2.46 ml) 1 to 3 times a day, or as needed.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Utah Juniper Berry/Leaf (*Juniperus osteosperma*) has a diuretic effect on the body, supports the pancreas' attempt to normalize blood sugar levels. Utah juniper berry helps to clear pancreatic and urinary tract inflammations and reduce occurrences of kidney obstructions. A very antiseptic herb.

- Fenugreek Seed (*Trigonella foenum-graecum*) has been used in the Middle East and India for many centuries for its ben-

eficial action on the pancreas. High in antioxidants, fenugreek reduces blood sugar levels, helps the body respond better to natural insulin, and is high in saponins (bio-detergent agents) and flavonoids, making it a soothing and healing herb for the pancreas and urinary tract. It has also been shown to lower LDL cholesterol levels and benefits the stomach.

- Dandelion Root (*Taraxacum officinale*) is a liver cleanser, increases bile flow, and has a diuretic action on the body. This blood purifying herb supports the kidneys and is rich in vitamin A and is high in potassium, an important mineral for cellular health that is often needed when diuretics are used.

- Burdock Root (*Arctium lappa*) is blood cleansing and purifying herb that helps remove toxins from the body. Helps balance blood sugar levels, soothes stomach tissues, supports pancreatic function and has a mild diuretic action that aids perspiration and movement of fluids throughout the body.

- Uva-ursi Leaf (*Arctostaphylos uva ursi*), is also known as bearberry and kinnikinnick. It is a mild diuretic herb that reduces fluid retention and inflammations of the urinary tract, and has definite antiseptic action in the urinary tract.

- Alfalfa Leaf (*Medicago sativa*) was known in ancient Middle Eastern countries as being "the father of all foods." Rich in major minerals (calcium, magnesium, phosphorus, and potassium), trace minerals, and all known vitamins, supporting pancreatic function. Pancreatic imbalances respond very well to alfalfa.

- Juniper Berry (*Juniperus communis*) lowers inflammation in the urinary tract, has a diuretic effect in the body and has been found to assist in moderating pancreatic imbalances.

- European elder berry (*Sambucus nigra*) was known in ancient Europe as "nature's medicine chest." This herb supports the immune system is high in vitamin C. It also has a mild laxative action that benefits the urinary tract.

- mB!™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process to enrich and assist important enzymatic processes.
