

Parasite Cleanse

by CEDAR BEAR NATURELES®

Great Tasting 100% Alcohol-Free Liquid Herbal Products

Fight Intestinal Parasites Naturally With Herbs!

In our modern society, we often like to think that we are immune to such unpleasant things as internal parasites, but invasive organisms don't care who we are or where we live. Because of increases in world-wide travel, importation of foods, personal pets, weakened immune systems, weakened digestive systems and other factors, parasitic problems have become more prevalent for children and adults alike. As a result, intestinal parasite problems happen to most people at some time in their lives. When and how often parasite infestations occur depends on such factors as where one lives, personal and the surrounding society's hygiene habits, pets, travels, and the outdoor activities one participates in.

Parasitic infections are among the most common health problems throughout the world. While the most serious of parasite caused illnesses are most commonly found in third-world country conditions, many chronic health problems may be caused or exacerbated by the presence of some form of parasite, including many forms of digestive system problems, chronic lack of energy and fatigue, food allergies, and many respiratory problems.

Cedar Bear Naturales® 100% whole herb Parasite Cleanse helps neutralize and expel unwanted intestinal and systemic parasites. It has a stimulating digestive action that therapeutically changes and moderates the environment of the digestive system, allowing beneficial flora to flourish that discourage parasite infestations from occurring. It also contains a special Aromaceutical™ Blend that targets a wide range of parasites.

Many non-specific health problems can be traced to differing parasite infestations that may be cleared up effectively simply by using CBN™ Parasite Cleanse! It can be used as a preventative measure as well as for reducing active parasite activity.

This formula is high in iodides and essential oil components that are known to moderate and/or eliminate parasites.

CONTAINS: Black walnut hull, orange peel, lavender flower, pennyroyal leaf/stem/flower, clove bud, gentian root, wormwood leaf/stem, tansy leaf/stem, mBI™ Liquid Trace Mineral base, and a special Aromaceutical™ Blend in a kosher certified vegetable glycerin/purified water TincTract® base.

NOTE: Not to be used during pregnancy, when diarrhea is present, or with autoimmune conditions. Consult physician if on thyroid medications.

SUGGESTED USE: 1/2 teaspoon (2.46 ml) 2 to 3 times a day, or as needed. For best results, take regularly for 3 to 4 weeks, discontinue for 1 to 2 weeks while taking Clove Bud TincTract® or tea daily, then take again regularly for 2 to 4 weeks.

MORE ABOUT THE HERBS IN THIS FORMULA:

- Black Walnut Hull (*Juglans nigra*) has a highly effective anti-parasite action; an effective iodine rich blood purifier.
- Orange Peel (*Citrus sinensis*), a digestive aid with aromatic qualities known to have antiparasitic qualities. It is rich in citric-based flavonoids, contains saponins (detergent-like agents) with antiseptic action, and has a gentle immune stimulating quality.
- Lavender Flower (*Lavandula angustifolia*) has a relaxing, nervine quality. It has a strong antiseptic-based antiparasitic quality and also cuts bloating and acrid belching.
- European Pennyroyal Leaf/Stem/Flower (*Mentha pulegium*) has aromatic components that reduce flatulence, intestinal pains, and nausea that often accompany intestinal parasites.
- Clove Bud (*Syzygium aromaticum*) is high in an aromatic anodyne that is very antiparasitic.
- Gentian Root (*Gentiana lutea*) increases the flow of saliva and digestive juices, strengthens tissues in the digestive tract that are often compromised by the presence of intestinal parasites, and has an effect that expels parasites.
- Wormwood Leaf/Stem (*Artemisia absinthium*) is so named because of its ability to expel a broad spectrum of parasite intestinal worms from the body. This herb has a strong antiseptic and antimicrobial action and supports digestion.
- Tansy Leaf/Stem (*Tanacetum vulgare*) has been used for many centuries to expel intestinal worms and to aid digestion with strong aromatic digestive stimulating qualities.
- mBI™ is a proprietary, micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process to enrich and assist important enzymatic processes.
- Aromaceutical™ Blend: Specially formulated to enhance the antiparasitic/vermicidal activity of the formula and also assists in the uptake of iodine and the activating of the thyroid gland.

WORKS WELL WITH THESE CBN™ PRODUCTS:
