

Revive-A-Drive™

by CEDAR BEAR NATURELES®

Great Tasting 100% Alcohol-Free Liquid Herbal Products

An Herbal Aphrodisiac Supporting Formula

An aphrodisiac is something that works to increase libido (sexual desire) and performance. From time immemorial, people throughout the world have searched for effective aphrodisiacs.

Revive-A-Drive™ by Cedar Bear Naturales® is an herbal aphrodisiac formula that really works! The herbs used in this formula help support hormonal function in the reproductive system, improve underlying vital energies, stimulate pelvic circulation, increase sensitivity, support stamina and generally work as an herbal Viagra®!

Often, lack of desire or sexual stamina are due to a lack of underlying vital energies or mild depression due to stress. Revive-A-Drive™ is rich in minerals and vitamins that help to support healthy function of the reproductive system, has an overall mildly energy stimulating and anti-depressing effect, and soothes stressed nerves to help overcome low energy and vitality levels.

Also recommended: Male Plus and Prosta•Aid™ (for male reproductive system health); Female Plus (female reproductive system health); Goji Plus™ Longevity Formula and Vitality Plus (vitality building), Heavenly Desire™ Topical Salve (external use lubricant support).

CONTAINS: Epimedium leaf [horny goat weed], yohimbe bark, damiana leaf, stinging nettle leaf/stem, schisandra berry, eleuthero root, mBI™ Liquid Trace Minerals, and a special libido supporting Aromaceutical™ Blend in a kosher certified vegetable glycerin/purified water TincTract® base.

NOTE: Do not take in large amounts or over extended periods of time. Consult physician if on medication for cardiac problems or penile erectile dysfunction.

SUGGESTED USE: 1/2 teaspoon (2 ml) one to three times a day to build stamina and libido, and as needed for specific performance support.

MORE ABOUT THE HERBS IN THIS FORMULA:

• Epimedium Leaf [Horny Goat Weed] (*Epimedium sagittatum*) is a recently introduced herb from the Orient that stimulates circulation to the pelvic regions and increases the sensitivity of peripheral nerve endings. Known as "horny goat weed," this herb has a history of use as an aphrodisiac

longer than most herbs in Western herbal traditions.

• Yohimbe Bark (*Pausinystalia johimbe*) is an effective circulatory stimulant for the pelvic region. It also stimulates capillary circulation in the extremities of the body when used over an extended period of time.

• Damiana Leaf (*Turnera diffusa*) benefits hormonal balance and moderates male and female glandular function, lifts mood, benefits nervous system, and also has an anti-septic action in the urinary system.

• Stinging Nettle Leaf/Stem (*Urtica dioica*) is a nutritive herb that is very high in tissue building mineral electrolytes, helps stimulate the circulatory system, reduces inflammations of the lower urinary tract, and supports prostate health.

• Schizandra Berry (*Schisandra chinensis*) is a general glandular and immune adaptogenic tonic herb that is highly nutritive and helps improve stamina and performance. Generally moistening to the body's systems, it helps the glandular system to function properly.

• Eleuthero Root (*Eleutherococcus senticosus*) is a general revitalizing glandular and immune tonic herb that is traditionally used in men's libido and reproductive health formulas and has a stamina enhancing quality similar in action to Ginseng. Reduces related problems related to stress.

• mBI™ is a proprietary micro-fractionated liquid trace mineral supplement made using the exclusive CBN™ Citritol™ process that enriches and assists important enzymatic processes.

• Aromaceutical™ Blend: Specially formulated to have a profound effect on the endocrine system and to pull energy downward into the lower part of the body.
