

Sugar Stop!

by CEDAR BEAR NATURALES®

Great Tasting 100% Alcohol-Free Liquid Herbal Products

An Herbal Formula that Helps Stop Sweet Cravings and Balance Blood Sugars

Ever wanted help with reducing sugar cravings or balancing blood sugars? There are herbs that have been used for centuries for that very purpose in various cultures around the world.

Sugar Stop! contains an amazing herb from India, Gymnema, which temporarily makes sugars in food tasteless! Sugar Stop™ helps to balance blood sugar levels and glandular function while building the health and strength of the pancreas. It also has a gentle blood/liver cleansing action while supporting digestion.

Sugar Stop! helps to curb sugar cravings and is an effective aid for weight loss programs. It is also a tonifying formula that supports the health of the pancreas, itself.

In many instances, Sugar Stop! helps those wishing to quit cigarette smoking through acting as a "smoking blocker" by adversely affecting a cigarette's taste.

It is important to drink plenty of water when taking Sugar Stop!. Sweet cravings and hunger cravings are often caused or exacerbated by dehydration in the bloodstream, even when there are excess fluids in the body.

CONTAINS: Gymnema leaf, licorice root, dandelion root, burdock root, stevia leaf, eleuthero root, mBI™ Liquid Trace Minerals, and an anti-habituating Aromaceutical™ Blend in a kosher certified vegetable glycerin/purified water TincTract® base.

SUGGESTED USE: 1/3–1/2 teaspoon (2–2.46 ml) as often as needed. May be used in frequent small doses, whenever sugar cravings strike, or before meals.

NOTE: Those with high blood pressure, liver or pancreatic conditions should consult a qualified health practitioner concerning their use of this formula.

ABOUT THE HERBS IN THIS FORMULA:

- Gymnema Leaf (*Gymnema sylvestre*) has a bitter component that numbs the taste buds associated with the taste of sweet and some salty tastes. It has a positive healing and balancing effect on the pancreas and has been used extensively in India for over 2,000 years, where insulin imbalances first appeared. Gymnema helps lower blood sugars, balance insulin levels, benefits the stomach, reduces constipation, water retention, and is healing to the liver.

- Licorice Root (*Glycyrrhiza glabra*) has been one of the most important herbs in traditional Chinese medicine for many centuries. A nutritive, soothing, gentle adrenal stimulant with strong adrenal tonic properties that helps balance blood sugar levels, dissipate sugar cravings, and help stave off hunger.

- Dandelion Root (*Taraxacum officinale*) is a mild liver cleanser that increases bile flow, builds the liver, blood and immune systems. It has a moderate diuretic action in the body, and supports the function of the pancreas. It also helps support digestion.

- Burdock Root (*Arctium lappa*) is a blood-cleansing herb that has a soothing effect on the tissues of the stomach. It works to enhance the effect that gymnema has on diminishing sweet cravings, and gives a feeling of fullness. This herb improves digestion and mildly lowers blood sugars.

- Stevia Leaf (*Stevia rebaudiana*) helps balance blood sugars. Many times sweeter than sugar, may be used by those with insulin imbalances. Helps to give a sense of fullness.

- Eleuthero Root (*Eleutherococcus senticosus*) [formerly called Siberian ginseng] has been used in Chinese medicine for 2,000 years. It is a general glandular and immune tonic herb that helps to give the feeling of fullness. It supports immune function and stamina levels.

- mBI™ is a proprietary, microfractionated liquid trace mineral base made using the exclusive CBN™ Citritol™ process to enrich and assist important enzymatic processes essential to this formula.

- Aromaceutical™ Blend: A specifically formulated essential oil blend that enhances the actions of the herbs, assists in mineral electrolyte dynamics throughout the body, works well with gymnema and helps to reduce hunger feelings.
