

microBURST!™ Liquid Trace Minerals

by CEDAR BEAR NATURELES®

Great Tasting 100% Alcohol-Free Liquid Herbal Products

A REVOLUTIONARY LIQUID TRACE MINERAL SUPPLEMENT

microBURST!™ liquid trace mineral supplement is an essential part of a natural health care program that helps to create and protect vibrant health. *microBURST!™* works on the energy systems of the body to enhance energy and vitality. Boost your energy levels and overall health with *microBurst!™*. It's literally *Energy in a Bottle!*

The first generation of this revolutionary new product evolved out of L. Carl Robinson's work with his very successful trace mineral supplement predecessors, Aromin™ Day and Aromin™ Night. These products created a great deal of excitement by those who used them, increasing energy levels and overall health.

Now, Cedar Bear Naturales® has introduced *microBURST!™*, an even more advanced trace mineral supplement, that is so effective that virtually everyone who tries it has that "WOW!" experience. Appropriately named *microBURST!™* because of the micro-fractionation of the molecular structure that makes it more bio-absorbable on a cellular level, people who use it often experience a subtle burst of energy throughout their bodies immediately.

First developed by L. Carl Robinson in 1989, *microBURST!™* is unlike any other trace mineral supplement. *microBURST!™* is a colloidal trace mineral product developed from minerals found in ancient sea beds and contains all of the seventy plus trace minerals necessary for body function. Then, the trace minerals in *microBURST!™* are "micro-fractionated" so this product goes beyond regular absorption and activates cellular action. It goes right to the core of cellular function and helps all aspects of health.

A proprietary CBN™ Aromaceutical Blend specifically formulated to further enhance mineralizing function of *microBURST!™* is added to the blend. This aromaceutical blend adds a certain amount of antibacterial action and helps the body's immune system to do its' job.

Also, with a special vitality and DNA enhancing energization process that brings it all together, *microBURST!™* lives up to its name. Many people who take *microBURST!™* on a regular basis report having more energy, greater clarity

of mind, and general improvement in their overall sense of health and well-being.

Using *microBURST!™* while taking Cedar Bear Naturales® herbal formulas enhances their efficiency, as well. On a daily basis, adding *microBURST!™* to Cedar Bear Naturales® Herbal Minerals™, which contains major minerals from whole herbs, together with Daily Herbals™ For Your Blood Type and/or Antioxidant Berries Plus™ will provide a broad spectrum of trace and major minerals and vitamins that can't be beat.

With over 70 trace minerals, the proprietary formulation process and special aromaceutical blend and energy signature, *microBURST!™* is so efficient that only 1 to 3 droppers one to three times a day or a half a dropper several times a day with meals and in a glass of water (or directly in the mouth) will provide necessary trace mineral supplementation for the body under normal, everyday circumstances. Amount used may be increased when under immune or emotional stress.

Keep a bottle with you to pick up energy during the day or to put a few drops in a glass of water (in restaurant water, for example) that hasn't been filtered/purified to freshen it up similarly to how a squeeze of lemon does. Spray onto a sunburn for quick relief and faster healing. The uses of *microBURST!™* are more diverse than at first you may have guessed.

CONTAINS: Micro-fractionated poly-colloidal liquid trace minerals, kosher vegetable glycerin, re-mineralizing Aromaceutical™ Blend, and a DNA and vitality enhancing BTC™ energy signature.

SUGGESTED USE: 1/4–1/3 teaspoon (1.23–2 ml) in water with meals one to three times a day, or as desired.

microBURST!™ is a very important trace minerals supplement, and is an excellent enhancer for all Cedar Bear Naturales® products.

Item #420 1 oz; #419 1 oz spray; #426 2 oz
