Natural Skin Health Support with Herbal Balms (Salves)

The skin is the outer shield that protects our bodies, but because life is full of “whoops” and “oh-oh’s”, injuries and problems with the skin often happen, and anything from a small scratch on upwards in severity needs to be attended to.

Instead of reaching for non-natural products that may contain antibiotics, petroleum by-products, chemicals and ingredients that you can’t possibly pronounce, let alone recognize, turn to Mother Nature to treat those pesky problems on the skin.

Herbs have been used from time immemorial for soothing and healing remedies, both internally and topically. One way to effectively use them externally on the skin is in an herbal. A balm is a soft, semi-solid ointment-like herbal preparation for soothing or healing skin conditions, sores, and other topical problems.

Cedar Bear Naturales™ herbal balms have been formulated from whole and pure ingredients that nature has provided. Containing only soothing and effective herbs, organic olive oil, natural chemical-free beeswax, and skin healing essential oil blends, these salves are as close to nature as you can get for general healing action for topical use. Specially selected essential oils enhance the properties of the herbs in Cedar Bear Naturales™ balms. Essential oils, often known as aromatherapy oils, are the distilled volatile oils from plants that are so purified and concentrated that even tiny amounts can be very effective.

So, keep a few jars of Cedar Bear Naturales™ herbal balms handy, because life is full of bumps, scrapes, scratches, itches, ouches, and other topical use needs. Cedar Bear’s herbal balms absorb well into the skin and are not sticky.

Suggested Use: Apply to affected areas as needed.
